

# Swamp Girl Confesses She Assaulted Her Stepmother 1ST DEGREE MURDER CHARGE FOR ECKMAN

## BEAT WOMAN WITH CLUB, GIRL TELLS WAUSAU SHERIFF

STORY IS VAGUE ABOUT REASON FOR VICIOUS ASSAULT.

## TAKEN IN SWAMP

Fugitive Captured in Woods After Eight-Day Chase by Deputies.

Wausau—Mary Lawando, who was caught in a swamp near here Wednesday night and taken to a hospital in a serious condition which resulted from her eight days' hiding, following an assault on Mrs. Anna Lawando, her stepmother, confessed to Sheriff Arthur Zelworski, Thursday that she beat her stepmother with a club, on the night of July 10.

The girl refused to make known the reason for the attack, other than to say she "had trouble" with her stepmother. In her confession to the assault on her stepmother, on the morning of July 10, she said that for a week she had been running about the country in her car and came to the home that night from Stevens Point. She went into the yard and was met by the dog, which accompanied her to the basement window through which she crawled. In the basement she picked up a piece of wood and went upstairs to the bedroom.

Struck three times "I struck her hard once," she said, "then twice more. That is all I remember striking her."

Mary says she then went to either the porch or kitchen and secured a

(Continued on Page 3)

## RAID TRIAL

## NOW FRIDAY

Charged with possession of unlawful intoxicating liquor, James Tullies, Harry Carroll and Jay Baumgartner, South Janesville hotel men, will be arraigned before Justice of the Peace T. S. Fulton in Wausau at 2 p. m. Friday. Warrants for the arrest of the trio were issued Wednesday. The men will probably be bound over for trial by Judge Maxfield in municipal court here.

## VATICAN ASKS

## TRAFFIC MOVE

Berlin.—German representatives in London, Rome, Washington and at the Vatican have been instructed to make representations against prolongation of the traffic blockade between the occupied and unoccupied territories of Germany, according to a semi-official statement.

## DEFY LEWIS

## MINE EDICT

Sydney, N. S. W.—Four thousand Cape Breton coal miners have voted to continue their strike in defiance of the order of John L. Lewis, international president of the United Mine Workers, to confine the department charter and ordering the men to work.

## GOVERNMENT

## BACKS WOOD

Washington.—The war department will stand squarely behind Governor General Wood in the political friction which has arisen in the Philippines. A personal of the fundamental "Wood" has confided the department officials that General Wood has not exceeded his authority.

You will be more and more interested in "The Step on the Stair" as you progress with this new mystery story by the master of mystery writing, Anna Katharine Green. Get the next installment in the Saturday and Sunday Gazette. Albert Cummins, U. S. Senator from Iowa, will begin a series of articles on Transportation in the Saturday and Sunday Gazette. Here is a new kind of analysis of the Sunday School lesson written by a newspaper man—William J. Southern, beginning in the Saturday and Sunday Gazette. All the regular features—all the departments, all the news.

## SUFFRAGE PIONEERS "LIVE AGAIN"

Seneca Falls suffrage leaders representing famous old pioneers in pageant. In center, seated, is Mrs. E. M. Christopher, as "Elizabeth Cady Stanton." At her right, Mrs. Edward B. Gould, as "Lucretia Mott." At extreme right is Mrs. L. Y. Larzler, as "Amelia Bloomer."

## RUHR ONLY SOLID GUARANTEE FRANCE CAN LAY HANDS ON

## TAKES LITTLE STOCK IN CLAIMS OF WEAKNESS

Paris.—France has succeeded beyond her own expectations in the matter of reconstruction. The latest data available hardly can describe the extent of the undertaking. For instance, nearly twenty three thousand factories were destroyed, but in the last five years

fully twenty thousand have been reconstructed in their stead. About 742,000 homes were damaged or destroyed and 590,000 have been rebuilt or completely replaced. The population of the devastated and telephone wires were 400,000 below the pre-war census, but revenues

gathered from these regions have climbed from 600,000 francs in 1919 to 2,000,000,000 francs in 1922—and this year will amount to 3,000,000,000 francs or approximately \$176,000,000 annually, according to the present rate of exchange.

This is a marvelous showing and it is putting cheer into the French people. But there is a striking lesson in the progress that has been made. It makes the French a little more conservative in their estimates of the

(Continued on page 9.)

## BLUE RIVER BANK

## ROBBED; 4 HELD

Suspects Arrested in Lancaster After \$4,000 Cash and Bonds Are Taken.

Blue River, Wis.—The Blue River State bank was robbed, some time between 1 and 3:30 a. m. Thursday, and \$4,000 in cash and an unknown number of Liberty bonds stolen. All telegraph and telephone wires were found cut. Four men are being held as suspects at Lancaster, Wis.

## TRADED SON FOR

## HORSE AND BUGGY;

## SOLD 'EM FOR \$20

Shreveport, La.—Mrs. Arthur Manzey has complained to the district attorney's office here that her husband had traded their 14 months old son to an unidentified man for a horse and buggy and then had sold the outfit for \$20.

One of the features of the recent celebration at Seneca Falls, N. Y., marking the 75th anniversary of the birth of the suffrage movement, was the group of "suffrage pioneers" in the pageant. Suffrage leaders of Seneca Falls, which was the scene of the birth of the suffrage cause, represented these pioneers: Lucretia Mott, Elizabeth Stanton, Amelia Bloomer and others. Other parts of the pageant showed the progress of the suffrage movement.

## Auto Weight Tax

## Cards at the Gazette Office

In response to a request telephoned the secretary of state at Madison Wednesday, the Gazette has received a number of form cards on which returns are made for the automobile weight tax. These may be had at the Gazette office.

## QUIT RESISTANCE

## IF FRENCH LEAVE, NAIVE PROPOSAL

Paris.—The German government, through its embassy in London, is striving to have the forthcoming British note on reparations conveyed to the French government Germany's willingness to cease passive resistance in the Ruhr, subject to certain concessions on the part of France. This information has reached the French government on what is regarded as an unquestionable but unofficial authority.

These concessions appear to include: First, withdrawal of the Franco-Belgian troops of occupation, with the exception of a mere skeleton military force which would be in the diplomatic sense, "invisible."

Second, permission for the German officials and functionaries expelled from the Ruhr to return to their posts, restoring the local administration of the Ruhr to the French government on what is regarded as an unquestionable but unofficial authority.

These concessions appear to include: First, withdrawal of the Franco-Belgian troops of occupation, with the exception of a mere skeleton military force which would be in the diplomatic sense, "invisible."

## CHARGES TO SEE

## EXHUMED CORPSE;

## STATE TAKES HAND

New Orleans.—State health authorities ordered J. E. Jefferson of Marksville to bury a corpse that had been exhumed and which he was exhibiting, charging admission to see it, after it had been found near the surface in a steel casket by boys and was discovered to be almost perfectly preserved after it had been interred for more than a half century.

## DEMOCRATIC PARTY IS FADING AS NEW ALIGNMENT FORMS

## FARMER-LABOR FORCES ABANDON ANCIENT BAND WAGONS.

Donkey Deserted in Middle and Far West as Means of Political Travel.

Washington.—Success of Magnus Johnson has stirred up the democratic organization as has nothing else in years. The first flush was to gloat over the Johnson victory and Cordell Hull, national chairman, saw in it a repudiation of the policies of President Harding.

But after the first whoop and hurrah, things began to look different in the cold dawn of the morning after. In Wisconsin, the democratic party faded out last fall. In Minnesota, the party even then was in a minority. In Wisconsin have been marked up.

Now comes news that the Farmer-Labor Reconstruction League of Oklahoma has abandoned its old policy.

## ARSON SUSPECT IS HELD AT FREEPORT

## Confesses Setting Fire to Farm Buildings Owned by His Brother.

Freeport, Ill.—Leaving confessed, according to officers, to setting the fire which did several thousand dollars' damage on the farm of his brother, Arthur Peil, in Stephenson county, just across the state line, George Peil is held in the county jail here awaiting action by the state's attorney's office.

## ENGINEER OF

## TRAIN KILLED

Carteret, N. J.—Engineer McCarthy of a Central New Jersey railroad freight train was killed when his engine and six cars left the track and overturned on a curve near here Thursday.

## WISCONSIN LABOR FACING SPLIT ON SEPARATE PARTY

CONVENTION IS DIVIDED OVER POLITICAL METHODS.

## TIME NOT RIPE?

Support of Individual Candidates Urged by Ohi, Federation Leader.

Superior.—A division in the ranks of organized labor in Wisconsin, over the formation of an independent farmer-labor political party, is the present time, appeared in the convention of the state federation of labor meeting here Thursday, following introduction of resolutions calling for independent political action.

Matter of Method While authors of the two resolutions asked definitely that "labor form a party of its own, based on trade unions and to include all existing working class political organizations," the general executive board of the federation was commending that "Wisconsin unions continue their conferences with farmer groups and such and it may be

(Continued On Page 5)

## SACHTJEN TO KEEP PRESENT

## DEPUTY FORCE

Madison.—Herman W. Sachtnen, who took office this week as state prohibition enforcement commissioner, announced Thursday that the force of 12 deputies who have been attached to the office will continue.

Mr. Sachtnen said he was working out a well organized enforcement campaign, with his deputies. He will make his plan public as soon as the details are completed, he said.

Mr. Sachtnen said there was one thing he would insist on while he is prohibition commissioner, that is gentlemanly conduct of the part of the deputies while they are making searches and seizures.

## WHEAT BACK TO \$1 MARK AND GOING UP

Chicago.—Agitation to induce the general public to buy individually 1,000 bushels of wheat for future delivery was given in some quarters as the reason for the rise in wheat prices yesterday, which brought July wheat back to the dollar mark during the day and within 1/2 of that figure at the close. Flour prices were unchanged after several days' successive drops.

Grain men today were hopeful that prices would continue to climb, expressing the belief that the trade and the country would like to see higher prices. Prevention of further declines was said to be essential to the prosperity of the mid-west and farmers were urged to arrange for and avoid overloading the market, in statements by grain operators.

## ROAD LIABLE, SAYS BOARD

Chicago.—The Erie railroad company has made itself liable for a money recovery to every employee who suffered loss of compensation when the carrier arbitrarily reduced the wages of the crossing watchmen, flagmen and trackmen, in violation of the contract of the United States Railroad Labor board, the board announced Thursday.

## HEAVY DRAFT ON JUNE GAS STOCKS

New York.—Stocks of gasoline were drawn on to the extent of \$69,534 barrels during June, according to reports received by the American Petroleum Institute. Pipe line and tank farm crude oil stocks east of the Rockies increased 7,328,000 barrels in June.

The daily average gross crude oil production of the United States increased 3,600 barrels for the week ended July 14, totalling 2,238,750 barrels.

## At Local Theaters

"The Snow Bride," Alice Brady. "Haunted Valley," Ruth Roland. "The Ninety and Nine." "Glimpses of the Moon," Bobbie Daniels, Nita Naldi and David Powell. For names of theaters and other details, see "entertainment" advertisements on Page 4.

## Woolhiser Refuses City Manager Job

H. L. Woolhiser, city manager of Winnetka, Ill., and who was offered the position here of city manager of Janesville declined this morning to accept the place. This was communicated to President J. K. Jensen of the council by telegraph in response to a day letter sent Mr. Woolhiser, Wednesday.

The city manager of Winnetka has an enviable record and while his salary there does not come to the figure offered here of \$7,200, it was openly stated to President Jensen who made a visit to Winnetka that Janesville could not have Woolhiser.

Mr. Woolhiser said it was not the salary so much as the step upward which he considered in the Janesville job. He was not getting as much salary as he wished here. Winnetka, like him and wants him to serve as long as he will stay.

Immediate steps were taken by the committee of the council on city manager to secure some one else. One salary of \$5,000 and another of \$7,200 has been turned down.

## CARL FRITZ VICTIM OF SHOT GUN WOUNDS BY ADOLPH ECKMAN

This is the first picture published of Carl Fritz, killed with a shot gun fired by Adolph Eckman on Sunday afternoon near Darien, Wis., who Fritz went to get a pair of boots and a gun which he claimed were held by Eckman. This likeness of Fritz was in a photograph of the Fritz family and hung in the home of the Fritz's at Johnston and by permission was secured by the Gazette.

## ADMIRAL SIGSBEE, MAINE HERO, DEAD

New York.—Rear Admiral Charles D. Sigbee, U. S. N., retired, captain of the ill-fated battleship Maine, died suddenly Thursday.

Admiral Sigbee had been in poor health for two years, though only Wednesday he was out riding. His death was due to heart failure. Arrangements for the funeral have not been made, but he will be buried at Arlington cemetery, Washington, probably Monday.

Fame Through Disaster Admiral Sigbee rose to fame through one of the greatest naval disasters in American history—the "blowing up of the Maine." He was 52 years old at the time; a captain, a veteran of the Civil war, and an inventor of deep-sea exploring and sounding apparatus. He added fresh laurels to his fame in the war that soon followed the Maine disaster. As commander of the St. Paul, a trans-Atlantic liner, converted into an auxiliary cruiser, he captured the Spanish collier Restormel, carrying coal to Cervera, and thus sealed the fate of the Spanish fleet at Santiago. The cruiser Isabel II and the destroyer Terror hauled down their flags and surrendered to him.

Fought With Farragut The naval career of Sigbee began when he was 14. Born in Albany, N. Y., in 1845, he entered Annapolis in 1859 and was graduated four years later. He was assigned to the West Gulf Squadron, and at the age of 19 was following Admiral Farragut as an ensign, through the battle of Mobile Bay. At 20 he was fighting under Porter at Fort Fisher and at 23 he had been promoted to the rank of lieutenant-commander.

During the 33 years of peace that followed the Civil War, Sigbee won fame and promotion as an inventor. He had been named several times, the trend in former years has been to delay buying until as late a date as possible. Coal shortages in the past few years has resulted from such action.

No difficulty is being experienced by local dealers in receiving coal shipments especially of soft coal. It is estimated that between 80 and 100 cars of soft coal are received weekly in the city and between 20 and 30 cars of hard fuel.

## BUY COAL NOW, URGE DEALERS

Believing that a car shortage may result in a scarcity of fuel next winter, Janesville coal dealers are advising consumers to purchase as much of their winter's supply during the summer months as possible. If the dealers are filled during the summer months, according to the coal men, congestion will be avoided in the fall and winter.

## BANDITS ROB MADISONIAN

Madison.—Four armed bandits held up Herman Onabaker of Madison, on the highway between San Prairie and Columbus late Wednesday, and robbed him of \$75.

## FROG HUNTERS DO HEAVY BUSINESS

Jefferson.—Frog hunters are doing a record business in this section. Thousands of frogs are being killed daily and their extermination sold for as high as 40 cents a dozen. Farmers are concerned, maintaining that the frogs are helpful in destroying insects which damage crops.

## WALWORTH COUNTY FARMER TO FACE EXTREME ACTION

WILL BE ARRANGED IN JUSTICE COURT AT WHITEWATER.

## IS INDIFFERENT

Slayer of Carl Fritz Maintains Shooting Was Purely Accidental.

Elkhorn.—Adolph Eckman, 54-year-old Walworth county farmer, who, last Sunday afternoon, fired a shot which resulted in the death of Carl Fritz, Johnston farmer, will be charged with first degree murder, it was learned here Thursday. Information against Eckman will be filed in Justice Williams' court at Whitewater, probably Thursday and Eckman will be arraigned before Justice Williams. The date for arraignment will be set later.

The farmer is held in Walworth county jail and has assumed an attitude of indifference to events since the shooting at his farm, between Darien and Elkhorn, Sunday. He plays cards with fellow prisoners and greets all visitors cordially. He is held without bail. He maintains the shooting was accidental.

District Attorney Alfred Godfrey, Elkhorn, who has maintained strict secrecy of what charge the state of Wisconsin would prosecute, will represent the state. C. J. Sumner and E. L. Von Sussmiller, Delavan attorneys, are counsel for Eckman.

## PRESIDENT TURNS FACE SOUTHWARD

Will Visit Three More Alaska Cities Enroute to United States.

Seward, Alaska.—The naval transport, Alaska, which President Harding, Mrs. Harding and their party abroad, left here Thursday, steaming out of Resurrection Bay, clearing the recently christened Harding gateway and for the first time in two weeks, turning her prow southward.

Although the chief executive will visit three more Alaska cities—Naldez, Cordova and Sitka—he is enroute toward the states for the first time since he left Tacoma, July 5.

The Henderson is due to arrive at Valdez Thursday, through the Richardson highway, Alaska's north and south main road. Here the travelers will be met by Governor Wallace, Secretary of Agriculture Wallace, Speaker of the House Gillette and Chief Forester Greely, who left Fairbanks Monday evening for the Richardson highway, enroute to join the Henderson party, before it leaves Thursday for a stop Friday at Cordova.

The president spent Wednesday afternoon working on speeches he will deliver on the Pacific coast after returning to the states, July 27.

It became known he will discuss right of way for an address in San Francisco. It is expected, now that all powers have ratified the Washington arms conference treaties that the executive will present to the nation a report on the San Francisco address, a report on the accomplishment.

## SLAYER GIVEN SEVEN YEARS

Superior.—Jacob Vassili, 23 year old Greek, was sentenced to seven years in the state prison for the murder of Nicholas Triff, his neighbor. The slaying occurred in a lonely shack here, Dec. 28. Vassili was found guilty of manslaughter in the second degree. The sentence imposed is the maximum.

## \$15,000,000 DAMAGE SUIT

St. Louis.—A suit for \$15,000,000 damages has been filed in the court in behalf of James C. L. Huber, said by his attorney to be a London promoter, against M. C. Martin, said also to be a London capitalist.

## TORTURED BY MEN, CHARGE

Tulsa, Okla.—Details of her abduction here Monday night and subsequent torture in an effort to bring from her information relating to a deal in the oil business were given by Mrs. Pearl Fayter, according to a story published this morning by the Tulsa World. Before she was thrown from an automobile at Okmulgee late Monday night, Mrs. Fayter declared she was assaulted by two of her abductors and burned with acid. Her hair was shorn by the kidnappers, she said.

## THE WEATHER IN WISCONSIN

Generally fair Thursday night and Friday; cooler near Lake Superior.

WITH THE FARMERS  
Farm Bureau Official Information

KNOWN RECORDS  
AID TO DAIRYMEN

Tester Compares Production and Profit of Poor Cows and Good Animals.

The story of cow testing association work in Rock county is an accurate account of dairy progress. A complete report of the year's work of the Beloit-Rock county association one of the five in the county, has been prepared by Earl F. Smith, official tester, now resident at the State Home for the Aged at Scalesville.

The work of the Beloit association is featured by the record made by Ester Smith, a grade Holstein cow of good blood, with a record of 23,374 pounds of milk, 864.2 pounds of butterfat, valued at \$384.31, giving a net return of \$295.33.

**Average Production.**  
The comparison worked out by Earl Smith is interesting and in information worth the thought of every dairyman. The average production of cows in the United States is 12,800 pounds of milk and 400 pounds of fat. The average production of the Wisconsin cows is 4,300 pounds of milk and 130 pounds of fat. The average production of Wisconsin cows is 6,900 pounds of milk and 230 pounds of fat.

**40 in Honor Roll.**—40 cows in the Register of Production—at least a pound of fat a day.

Another remarkable record was made on a registered Brown Swiss cow, Minerva, owned by Ernest Skinkner, who bred, who is 13 years of age, produced 9,790 pounds of milk, 3,292 pounds of fat. A Guernsey, owned by W. J. Douglas, Beloit, produced 11,833 pounds of milk and 594.6 pounds of fat.

**Milk Test Herds.**  
Rock county needs more cow testing association. It pays to have a "test" or her half sisters, all leaders. The average production on this family, all sired by a good purebred bull, amounts to 12,573 pounds of milk and 437.5 pounds of butterfat. The net profit per animal on these 10 head is figured at \$123.43 per animal.

**Beating the "Production Record."**  
The Beloit association has had a remarkable year and apparently all members now are great boosters for testing.

**Try "GONA COFFEE" today.**  
**OFFICIAL N.P. ORGAN QUILTS**

**Minneapolis.**—The national non-partisan league lost another battle when it was announced in the official organ of the league, that the paper had been forced to suspend on account of financial difficulties.

**CLINTON**  
Clinton—Mr. and Mrs. Stephen Brown and family have gone on a northern vacation trip.

**For Dandruff, Itching Scalp and Falling Hair**  
Kolor-Bak also works wonders in the most persistent cases of dandruff, itching scalp and falling hair, as it thoroughly cleanses the scalp and hair. Many who do not need it on account of grayness use it for its cleansing, tonic properties.

Red or Black Currant Jelly

Crush well about 3/4 lbs. ripe fruit. Add 1 cup water, stir until boiling, cover pan and simmer 10 minutes. Place in jelly bag and squeeze out juice. Measure 1/2 cups (2/4 lbs.) juice from cooked fruit into large saucepan. Measure 7/8 level cups (3/4 lbs.) sugar in separate pan. Bring juice just to boil and begin to add sugar slowly, with constant stirring, taking about 5 minutes to add sugar, keeping juice nearly at boil. Then bring to boil and at once add 1/2 bottle (scant 1/2 cup) Certo, stirring constantly, and bring again to a full boil for 1/2 minute. Remove from fire, let stand 1 minute, skim, and pour quickly.

Sold by grocers everywhere, sent postpaid for 35 cents. Recipe Book of 76 recipes wrapped with every bottle.

## WALWORTH COUNTY

## ELKHORN

MRS. GRANT HARRINGTON.

Elkhorn.—Edward House took his Sunday school class of boys to Russell lake Tuesday night for a swim and water play.

Messages came Wednesday to Arthur Grosbeck and Mrs. Louis Burdett telling of the sudden death of Mrs. Edward Grosbeck at Ida, Minn. Mrs. Grosbeck was the daughter of Mrs. Burdett and is a sister of Mrs. Burdett of Elkhorn.

A masonic funeral for John Menzies was held at the La Grange church Wednesday with George Harrington in charge and the following Elkhorn men in attendance: L. W. Swan, R. J. Lean, Samuel Mitchell, Chas. Nott, H. C. Norris and S. Hicks.

Next Monday afternoon, Mr. Rivers of the life saving crew at Conference Point, Lake Geneva will give a life saving demonstration at Lauderdale lake, on the Sterling-wagon grounds.

All women and especially the younger women are invited to meet at Community hall Friday night at 7:30 to hear Miss Stueck, national secretary of the Y. W. C. A., to arrange plans for organizing this community.

The Williams brothers gave a farewell picnic supper for their sister, Mrs. Laura Weaver, Glendale, Calif., at their cottages on Lauderdale lake, Tuesday. There were 23 relatives present.

Charles Wiswell, Sugar Creek farmer says that he's going in strong for a sweet clover pasture for all his stock next year, as he finds it pays for cows much better. This year he seeded one field to it early in the season and now intends to dig it a June grass pasture and seed that.

Two automobiles collided at Tibbits corner early Wednesday morning and wrecked both cars, so the occupants had to be carried away.

Thos. Tinney, director of the Lauderdale lake golf links was riding on the running board of Chas. Taylor's car from La Grange when a Milwaukee car struck them and Mr. Tinney was badly bruised and Mrs. Taylor had her hip sprained. A physician cared for them, but the couple from Milwaukee escaped without injury.

H. J. Charlton left Thursday for Elkhart, Ind., to attend a meeting of the Executive Committee of the Band Instrument Manufacturers association.

Mr. and Mrs. Kenneth Matheson and daughter, have arrived from Washington, D. C., to visit James Matheson and family. Mr. Matheson will return east Monday where he is employed in the forestry division of the Department of Agriculture. Mrs. Matheson will remain a month.

John and Marion Matheson, Janesville, spent Tuesday and Wednesday in Elkhorn with their aunt, Miss Lulu Matheson.

Mrs. Alma Stanford Hall, Lime Springs, Ia., concluded her visit Wednesday and left for home. Twenty-three years ago she was principal of the Shopley school and 51 years ago P. W. Isham was the principal.

Mrs. Chas. Taylor, Woodstock, Ill., is spending two weeks visiting her daughter, Mrs. Henry Wales and old neighbors in Elkhorn.

Miss Mabel Svenson visited friends in Chicago and returned home last week with Mr. and Mrs. H. W. Peterson who visited in the Svenson home and returned to Chicago, Monday.

Mr. and Mrs. Ira Moyle, Los Angeles, Cal., with their mother, Mrs. Laura Weaver, left Thursday for the west coast having spent 6 weeks in Elkhorn.

Dr. and Mrs. Arthur Slatin, Chicago, were in Elkhorn Tuesday calling on acquaintances.

Mrs. Stanley Meinhard returned from Mr. and Mrs. H. J. Peters, from Madison, Sunday and will remain 2 weeks.

Mr. and Mrs. George C. Kellogg and Esther Tischendorf will leave by car early Friday morning for Rapid City, S. Dak., to visit Amos Kellogg and family and they will return to other points that state remaining about 6 weeks.

## FONTANA

Fontana.—Mr. and Mrs. David, Harvard, called at the home of Clifford Sullivan Tuesday night.

Mrs. Emma Taylor, Darien, is helping care for her mother, who is very ill at the home of Zina Van Drosser.

Miss Virginia Haser and friend, Chicago, called on the former's cousin, Mrs. Lyle Rowbotham, recently.

Mr. and Mrs. William Keegan and children returned to Como Monday night and called on Mr. and Mrs. Charles Koelke.

Herman Barth, North Walworth, made a business trip here Tuesday.

A few from here attended the dance at Six Corners Wednesday night.

George Heller called on friends here Tuesday night.

Mrs. John Beckstrand entertained her aunt, Mrs. Bloom, Harvard, Tuesday.

Mrs. Charles Gannett called on her daughter, Mrs. Lyle Rowbotham, Wednesday.

Mr. and Mrs. Michael Quinn and two children started Wednesday for Aberdeen, S. Dak., by motor.

EXPERIENCED, CAPABLE GIRL WANTED FOR HOUSEWORK. Would you care to make your home with a nice small family? Plenty of privacy, no washing and good wages. Address 574 1/2 Central Gazette.

STOLEN. Thieves entered the barn of Theodore J. Langley Monday night and stole a new double harness and flycots.

After the average man has reached the three score and ten mark he can sum up his life in these few words: "What a fool I've been!"

A CRY IN THE NIGHT, gripping pains in the vitals, cramps, weakening diarrhoea—whether child or adult, immediate comfort and ease in CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY.

Apply Zemo, Clean, Penetrating, Antiseptic Liquid.

It is unnecessary for you to suffer with Eczema, Blisters, Ringworm, Rashes and similar skin troubles. Zemo obtained at any drug store for 35c or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress.

## WHITEWATER

MISS ALICE MARSH, Phone 232-46.

Whitewater.—Whitewater normal students, 440 strong, drove out on highway 59 at 1 p. m. Tuesday with Prof. C. M. Yoder as guest in the lead, bearing large white banners reading "Normal school, Whitewater," and streamers of purple tied in place by the Misses Lacy Thatcher, Nellie Sayles, Mildred Yoder and Mrs. C. Wheeler, occupants of the first car. Details had been so carefully worked out by Professor Yoder and those assisting him, that each driver of the cars knew exactly what to do in the procession, and no confusion or delay was experienced in the procession.

The procession proceeded on Main street from Fremont and Prince street, and each person knew the number of his car and what to do in the procession. The procession was a success in every respect.

Drivers had a list of occupants of his car, which Mr. Yoder had arranged, and he kept a list of the cars. When the procession began to zigzag from side to side on Main street, through the business section, the storekeepers were ready to applaud the sirens which announced their approach. Each car carried banners or purple and white decorations. Ideal weather and good roads made the 26 mile drive to the Yerkes Observatory, Lake Geneva, a pleasure. Officials there were ready to receive the delegation when it arrived on schedule time. Photographs were taken on the north lawn and from the roof of the observatory before the students entered the building for their observations. Some students had expected to look through the telescope but Professor Barrett showed how it is used for photographic records which were on view in one of the rooms.

## NEWSPAPER MAN WRITES LESSONS ON THE BIBLE

Preachers and teachers have written Sunday School lessons and comment on lessons for many years. Over in Independence, Missouri, was a newspaper editor who thought the comment was often too high, and theological for the average reader, so he began to write Sunday School lesson talks for his own paper.

It was readable. He humanized the characters in the Bible and was able to see them, not with the Oriental eye as told in the translation of the Hebrew but as one face to face.

Cummins on Railroad. The Cummins has been watching the lessons as printed by this Missouri paper and later by other newspapers. We have arranged to use the comment in the Gazette and William J. Southern, Jr., the writer will contribute the lesson comment weekly hereafter. It is one more feature for the Saturday and Sunday Gazette.

Everybody knows that Senator Albert Cummins has been closely associated with the railroad problem for many years. He is one of the opponents of the Esch-Cummins law. Recently he stated that that law should be revised and changed to meet the present situation. The Gazette has secured from Senator Cummins a series of articles on railroads, on the transportation problem, the question of rules and management, on consolidation and valuation and these will appear in the Gazette, both the daily and Saturday and Sunday issues from time to time. The first one will appear in the Gazette Saturday and Sunday this week end.

has taught all the boys many things. Classes in swimming, in nature study, in personal cleanliness, and camp competition in keeping tents and tables in the neatest possible order have resulted in boys learning much that will benefit them in later life. And besides this, Camp Rotardale will always have a warm place in the hearts of these 110 boys. Some of the boys won at second period camp, just closed, were:

W. H. Honors.

Jack Whitfiner and Lawrence Ellis were first two campers to complete their nature study tests, and were awarded emblems.

R. Bush, Clarence Ward, John Whitfiner swam a half-mile for junior life-saving buttons. Carlos Palmer and Griffith Beers swam a mile for senior buttons.

Tent 2 won the camp baseball championship and a watermelon. They defeated Tent 5, 8 to 7. Leaders' team won from the campers all-star Monday, 31 to 2.

Tuesday, last fall day at camp, was enhanced by an aquatic meet. Eleven points won at this, or together with those at the track meet, held Wednesday morning, won for the boys, a numeral. Following are the aquatic meet results: First, second and third in places, in order:

Class 1—25-yard, free, Blakely, K. Bolton and Bromberg. 25-yard back, Blakely, Bolton and Lawrence Ellis. 50-yard, Blakely, Bolton and Ellis. Plunge, Bolton, Blakely and Ellis. Under-water swim, Blakely, Ellis and Bolton.

Class 2—50-yard, free, Gotsick, Nichols and Edgar Carey. 25-yard back, Gotsick, Carey and Jack Worden. Dive, Worden, Dick Nichols and Gotsick. Plunge, Gotsick, Nichols and Carey. Under-water swim, Whitfiner, Gotsick and J. Juckett.

Class 3—50-yard, free, C. Ward, B. Bier and Lamb. 25-yard back, Ward, Bier and Lamb. Plunge, Bier, Whitfiner and B. Bier. Under-water swim, Lamb, Bier and Whitfiner.

The boys broke camp at two p. m. Wednesday when the third period boys arrived.

## HELP FOR BLIND ASKED FROM CITY

Badger Advancement Association Securing Funds for Worthy Cause.

Solicitation of funds in this city during the coming few days for the Badger State Advancement Association of the Blind, these funds to be used to educate the 2,000 adult blind of the state in making their own living, is being made. Sept. 1, J. T. Hooper and one of the most interested workers in the blind cause in the state, will act as drive chairman.

This drive, Mr. Hooper said, is one of the most important ever attempted in the state, as far as the blind are concerned. It means the fulfillment of two years of hard work upon the part of blind men to aid themselves and other adult blind so as to have an opportunity to earn a living.

The plan of the drive of these funds is to teach adult blind rug-weaving.

broom-making, piano-teaching, shoe repairing and dictaphone-operating, together with other trades, so that they may earn their living independent of state and private aid.

# The Janesville Gazette

GAZETTE PRINTING COMPANY, Owners.  
Harry H. Bliss, Publisher, Stephen Holmes, Editor.  
201-204 E. Milwaukee St.

Entered at the Postoffice at Janesville, Wis., as  
Second Class Mail Matter.

Full Length Wire News Report by Associated Press.  
BUSINESS OFFICE OPEN SATURDAY EVENINGS.  
Telephone AD Department 2500.

## SUBSCRIPTION RATES.

In Janesville.  
By carrier, 15c per week or \$7.50 per year.  
By mail in Rock, Walworth, Jefferson, Green and  
Dane counties.  
3 months \$1.50 in advance.  
6 months \$2.75 in advance.  
12 months \$5.00 in advance.  
By mail in second, third and fourth zones, \$7.50  
per year in advance. In fifth, sixth, seventh and  
eighth zones, \$8.00 per year in advance.

## MEMBER OF THE ASSOCIATED PRESS.

The Associated Press is exclusively entitled to  
the use for republication of all news dispatches  
credited to it or not otherwise credited in this pa-  
per and also local news published herein.  
The Gazette prints freely of events when they  
are news. The following items are chargeable at  
the rate of 20 cents a count line, average 5 words  
to the line. Ordinary Cards of Thanks, Notices of  
any kind where a charge is made to the public.

## Wheat and Eggs.

Let us go back to wheat once more and prices  
and crops. It is a good thing to discuss these  
things, though we are not able by so doing, to  
send the wheat quotations up a few cents. The  
great stabilizer of eggs and egg prices have been  
the cold storage houses. It has enabled farmers  
to receive a better price for eggs and often has  
saved the consumer from paying an exorbitant  
price when eggs are scarce. We use the word  
"exorbitant" from the consumer's view point since  
we would perhaps not be in agreement with the  
producer of eggs that any price was too high so  
long as it was a market quotation. That is a  
point on which we must get together some day—  
what is too high or too low a price. Here in fact  
much of the trouble begins and dissatisfactions  
follows. The farmer wants a high price—he is  
bull on all markets; the consumer wants a low  
price and is always a bear on the market. That  
sometimes makes it hard to understand how an  
amicable adjustment of these widely diverging  
viewpoints can be harmonized in a combination  
of the producer, the farmer, and the laboring  
man, who is a consumer only of farm products.  
It was impossible to rationalize these differences  
in Russia and the communal government gave  
way to a dictation of centralized forces under  
pressure of the farmer-peasant because the  
peasant was getting the worst of it.

There are plenty of eggs in the summer time  
and few in winter. Storage of surplus has acted  
to keep down the high price in winter. When  
wheat comes into the market, it will look  
over the records of fifty years we shall find that  
the price is lowest almost invariably at the time  
when the crop has been moving for a few weeks.  
We have a wheat crop of 800,000,000 bushels in  
sight. There is about 140,000,000 of old stock to  
carry over. Experts in wheat figure that this is  
about 200,000,000 bushels more than the domes-  
tic and export business can absorb. Canada has  
nearly 500,000,000 bushels in sight. Strange to  
say we imported 14,132,790 bushels of wheat  
from Canada in the nine months after the new  
tariff went into effect up to March, 1923. More  
is waiting to be imported. The difference in  
money values has helped the Canadian some but  
he pays 30 cents a bushel to the government of  
the United States.

Senator Brookhart, of Iowa, says that Russia  
is going to raise an enormous crop—he says he  
has seen 2,000 miles of it himself. Mr. Brook-  
hart has no economic remedy, nor does he pro-  
pose any measure by which wheat may be raised  
in price. Assuredly his notion of recognizing  
Russia is not materially all since Russia is a  
grain growing country and a competitor of the  
American farmer and the Russian would buy had  
he any money with which to buy, only American  
manufactured articles. Hence we must leave Mr.  
Brookhart and his kind, the Magnus Johnsons  
and LaFollettes also sitting on the wayside stump  
damning monopoly and getting nowhere, except  
with rumbling thunder. Mr. Brookhart says  
the price for grain is set in foreign countries  
which use only ten per cent of our cereals. He  
is going to make a few speeches in congress and  
stop that. Responsibility for that situation is  
so lost in the dim and distant past that it is hard  
to locate. It is economical and not at all politi-  
cal. In the beginning of things we sold surplus  
in foreign countries. We went into that foreign  
market in competition with Russia, India and  
Argentina. Wheat in a foreign market was a  
tangible, measurable thing. It was not specula-  
tive nor a pawn of gamblers. That surplus sold  
abroad was the measure of profit. There have  
been times in this country when we have de-  
nounced the exporters for shipping out wheat  
when we wanted it here at home—denunciation  
because the export price had raised the domestic  
market for wheat and flour. At the present time  
we are not suffering here because of prices of  
wheat abroad or fixing prices in foreign markets  
for domestic sales.

We must look farther than the tariff as a rea-  
son for the quotation on wheat. The Canadian  
farmer who sells wheat here must realize 30  
cents a bushel less than the United States far-  
mer. His crop does meet that of the United States  
in Liverpool but he can obtain no more than  
the wheat from Kansas will bring. All the fuss  
made over the tariff is waste time as far as our  
grain prices are concerned if we are willing to  
take actual facts and not visionary theory or loud  
denunciation as a basis for settlement of any  
question.

It is just possible that we may have to go  
back to the egg and its marketing as a solution  
of the problem.

We have some things to remedy and among  
them are these economic conditions shown  
graphically by zig-zagging lines between selling  
and production. It cannot be dismissed in a line  
or two and so other articles will follow in these  
columns on this subject.

There is something of historical interest in  
the death of Senator William F. Dillingham, of Ver-  
mont, more than is usual, to residents of Rock  
county and of Wisconsin. The father of Senator  
Dillingham was father also of the wife of Senator  
Matt Carpenter, Caroline Dillingham, and her  
first residence in Wisconsin was at Beloit. The  
Dillinghams have been for more than a century

## TESTING AMERICA'S SUPPLIES

By FREDERIC J. HASKIN  
Washington—Adhesive plaster, apricots, anvil,  
armatures, aquarium for frogs, asparagus, as-  
bestos, compasses. This list may look like a  
random selection of words from chapter one of  
the dictionary, but it was really taken, from a  
file catalog of the Bureau of Chemistry. It  
represents a few of the things beginning with  
"A" which that bureau has been buying, and it  
affords some idea of the variety of articles used  
by one of the most versatile branches of the  
government.

The Bureau of Chemistry buys a greater and  
more interesting assortment of useful articles  
than any other government office. If you doubt  
this, consider the case of a single section of the  
bureau which is connected with the enforcement  
of the pure food and drugs act.

Every food and drug product that is shipped  
in interstate commerce or imported into this  
country comes under the regulations of this act.  
Consequently, samples of practically every item  
of this sort, on the market are bought at one  
time or another to be inspected, and perhaps  
analyzed, by the bureau chemists. This host of  
patent and proprietary medicines, as well as  
drug products that are sold on doctors' pre-  
scriptions, are examined. Strange cheeses and  
food pastes imported for the use of foreigners  
are also examined, among the samples which  
come into the laboratory, and with them  
are sent in all the ordinary foods in cans, pack-  
ages, and bottles.

The government gets a few of its samples for  
inspection and analysis free, but for the most  
part it buys them from retailers like other cus-  
tomers, and pays cash. The bureau's annual  
bill for all these groceries, medicines, beverages,  
and other articles intended for consumption  
runs to about \$10,000.

No other section of the bureau has quite so  
much variety in its supply list, but each  
laboratory demands a different line of materials.  
Thus, for the leather laboratory the supply  
office buys raw hides and leathers. This  
laboratory studies different kinds of leather  
used for some specific purpose with the idea of  
developing a simpler or better method of pro-  
duction or of finding the comparative wear-  
ing values of different leathers. Government chem-  
ists have studied harness and shoe leathers.  
Their work in book binding leathers has en-  
abled them to assist in preparing specifications  
for bindings of rare volumes in government  
libraries.

Another commodity which the supply section  
must be ready to furnish is livestock. Guinea  
pigs, frogs, rats, and mice are required in some  
of the bureau's experiments.  
Chemicals, of course, go to all of the  
laboratories, and the list of chemicals used  
takes in practically everything of the kind that  
scientists can be obtained only from for-  
eign manufacturers, and occasionally the com-  
modity desired is so rare that it must be made  
year or more elapses before the manufacturer thinks  
it worth while to make up a supply. Once in a  
while an experiment calls for a chemical sub-  
stance which can not be bought at all, and in  
that case the chemist must go back to the  
natural source and make his own.

The government has the reputation of giving  
its scientists good materials and equipment.  
There are no more completely outfitted labora-  
tories anywhere than those put at the disposal  
of the Bureau of Chemistry employees. The  
electrical apparatus bought includes almost  
everything mentioned in an electrical catalog  
except big generators and machinery. Plum-  
bing supplies make up another extensive list.  
Every chemist has taps supplying water, steam,  
air, pressure, and vacuum on his laboratory  
table. It is no exaggeration to say that there  
is as much plumbing in some of these labora-  
tories as in the average house.

Storage rooms are added to store this bu-  
reau's supplies. Room after room is filled with  
glassware, stored away in shallow bins from  
floor to ceiling. Each bin contains a single kind  
and size of glass apparatus. There are whole  
rooms packed with nothing but flasks in every  
possible size and shape and in different grades  
of glass for specific purposes. In other rooms  
are thousands of beakers, from little ones hold-  
ing less than two ounces, up to the big gallon  
sizes. The supply office says that it keeps from  
100 to 500 containers of each size and type on  
hand all the time.

Another room is piled with brushes especially  
designed for cleaning all sorts of apparatus.  
There is a vast lot of dishwashing to be done  
in these laboratories. In some cases two or three  
scientists keep an assistant busy all day long  
at this job.

Each experiment is a research into a new field  
to some extent at least, and for that reason even  
the bureau chemists' supply catalogs do not al-  
ways contain the exact apparatus that the sci-  
entist thinks he will need. For these emer-  
gencies the bureau employs a glass blower who  
fills orders for unusual pieces of glassware. On  
the table of this worker you may see a piece of  
glass tubing bent back and forth like a fluted  
ribbon. Another order is for a slender little tube  
somewhat in the form of a cross. There is an  
eccentric looking tube shaped like a wriggling  
snake, and there are flasks with several tubes  
slid on at odd angles.

An expert mechanic's shop is also at the dis-  
posal of the chemists, and an expert mechanic  
assists them in rigging up complicated ap-  
paratus. Some of the machines and instruments  
that you see about the laboratories suggest to  
the layman the sort of weird things that H. G.  
Wells tries to describe in his stories of other  
planets.

While a whole house would be none too small  
to keep the bureau's glassware, its platinum  
stock, valued at between \$40,000 and \$60,000 can  
all be stored in a single safe. The bureau chem-  
ists use a good deal of platinum, because it is  
the least resistant of any metal where certain  
operations are concerned.

The safe's contents resemble a set of cheap  
aluminum dishes that might have been made  
for a child to play with. Yet a single tiny  
crucible, the size of a little medicine glass, is  
valued at \$150. Each dish is stamped with a  
number and catalogued, and a receipt is kept  
whenever it is removed from the safe or re-  
turned. Most of this platinum was purchased  
some years ago when the metal brought \$1.50 a  
gram—one-five-hundredth of a pound. Now,  
platinum is listed at \$3.50 to \$4 a gram.

Leaders in Vermont. The great grandfather  
lost his life fighting under Wolfe in Quebec. The  
grandfather fought for three years in the revo-  
lutionary war. Paul Dillingham, father of Mrs.  
Matt Carpenter and of Senator Dillingham, was  
governor of Vermont and Senator Dillingham, 80  
years old at his death, had served 23 years in  
the senate.

Astronomers are preparing to view the second  
great eclipse in September. The first one was  
at Smith.

A few days ago two traveling spectacle sales-  
men cheated a farmer near LaCrosse out of \$800  
in a fake operation for eye trouble. The country  
is filled with such men. The eyes of a great  
many persons have been ruined by purchasing  
glasses from peddlers who know nothing about  
the human eye. Selling spectacles in this man-  
ner is like peddling fake oil stock, only persons  
may recover from the purchase of oil stock and  
be unable to have the sight restored.

## JUST FOLKS

By EDGAR A. GUEST  
THE FISHER-BOY

Oh, happy boy who trudges down  
The dusty lane at night,  
And comes once more into the town  
A vision of delight;  
The proud possessors of a thrill  
Do which age cannot cling.  
Who walks the homeward journey still  
With fish upon his string.

The pole across his shoulder wears  
A touch of manly pride,  
And surely those are lordly airs  
Which mark the youngster's stride.  
Here is achievement's lofty height,  
With all success can bring.  
A fisher-boy bound home at night  
His trophies on a string.

The neighbors run to see his catch  
And count them o'er and o'er  
As though they'd never seen the match  
Of fish like those before.  
The old men stop him on his way  
To hear his wondrous tale,  
And tell about the time when they  
Once walked the self-same trail.

This is the highest peak of joy  
To which life lets us climb;  
To be a little while a boy,  
Untouched by care or time.  
To come when evening shadows fall  
And fade the golden sun;  
Head high, to show to one and all  
The trophies you have won.

Oh, once I trudged the dusty lane,  
And once old men stopped me  
When night came slipping down again  
My shining catch to see.  
Times was the neighbor's smile I knew  
And shared the joy you know,  
Oh, happy boy who trudges home,  
But that was long ago!

(Copyright 1923, by Edgar A. Guest)

## ON THE SPUR OF THE MOMENT

By ROY K. MOULTON

American women who are introduced at court  
in England and the English dressmakers charge  
the exhibitors with extravagance. They do not  
exactly see how they could reasonably expect  
to find anything else. Those who buy before the  
king must pay the modiste.

Armenians are now being taught by mail. But  
it will never be necessary to teach them how to  
sell rugs.

One of the main troubles about a vacation is  
finding time to take it.

## Who's Who Today

DR. MARSHALL HOWARD SAVILE

Dr. Marshall Howard Savile, who has just  
returned from a study of the ruins of Yucatan,  
Mexico, is an authority on ancient American civili-  
zation and a member of the staff of the Museum  
of the American Indian in New York. He has devoted  
more than a quarter of a century to the study of  
the ruins of the ancient American civilizations.

Dr. Savile was born in Rockport, Mass., June 24, 1867. After graduation from high school  
he entered Harvard college, graduating in 1894.  
During his second year in college he did field work un-  
der the direction of Profes-  
sor Putnam, making important discoveries  
among the remains of the Mound Builders  
in Yucatan. The following year he went to Mex-  
ico where he delved among the Maya ruins  
of Copan.

In 1914 he headed an expedition to Colum-  
bia, again to Honduras in 1915 and to Central  
America in 1917. He has also made extensive  
explorations of the ruins of Aztec and Zapotec  
remains in Mexico.

## HISTORY OF TODAY

TODAY'S EVENTS.

Five years ago today the Germans began their  
retreat across the Rhine.  
Seventy-five years ago today the first woman  
suffrage meeting in America assembled at Seneca  
falls, N. Y.  
An international aceo exhibition will be opened  
in Stockholm, Sweden, today, under the auspices  
of the Royal Swedish Aero club.

The United States Railroad board has set  
today for hearing the wage dispute between the  
Brotherhood of Railway Signalmen and a number  
of the largest railroad systems in the country. The  
signalmen request an increase.

## TODAY'S ANNIVERSARIES.

1870—England proclaimed neutrality in the  
Franco-Prussian war.  
1873—Samuel Wilberforce, the famous English  
bishop who wrote a history of the Episcopal  
church in America, killed by a fall from his  
horse, born.

1880—A strike of 67,000 telegraph operators, for a  
15 per cent wage increase, was begun at  
Baltimore.

1897—Jean Ingelow, celebrated English poet and  
novelist, died in London, born March 27,  
1820.

## TODAY'S BIRTHDAYS.

Dr. Charles H. Mayo, one of the heads of the  
celebrated Mayo surgical clinic, born at Rochester,  
Minn., 55 years ago today.  
Julian W. Mack, prominent Chicago jurist and  
a leader in the Zionist movement, born in San  
Francisco, 57 years ago today.

## LOOKING BACKWARD

FORTY YEARS AGO  
July 19, 1883.—Owing to the strike of tele-  
graph operators at noon today, we are without  
our usual market reports.—The extension to  
Chicago yesterday was one of the most pleas-  
ant ever started from here. Most of those who  
went returned very happy, and a great many  
car, while others can remain over for three  
days and still avail themselves of special rates.

THIRTY YEARS AGO  
July 19, 1893.—State board of dental exam-  
iners is here today giving examinations to a  
number of young men for the dental exam-  
profession. The test is an exhaustive one. Dr.  
G. L. McCaussey is a Janesville member of the  
board.—John B. Waldo came down to this city  
from Madison by rowboat, leaving there Sun-  
day afternoon, arriving here Tuesday after-  
noon.

TWENTY YEARS AGO  
July 19, 1903.—Heavy rains of all day yes-  
terday have raised the level of the river three  
feet above the mark. It has been all summer,  
and is causing some worry. It appears that  
the new Court street bridge will be a steel  
rather than a wooden structure, as was first  
thought, as it is claimed the bids called for  
steel.

TEN YEARS AGO  
July 19, 1913.—A big mass meeting was held  
at the Myers theater last night to enable the  
people to hear both sides in the present city  
government controversy. John C. Nicholas, or  
any of those who are supporting him as can-  
didate for mayor, if the recall election, failed to  
appear to give their stand.

DELIVERANCE  
For he shall deliver the needy  
when he crieth; the poor also, and  
him that hath no helper.—Psalm  
72:12.

## Personal Health Service

By WILLIAM BRADY, M. D.  
Noted Physician and Author

RICKETS  
Rickets or rachitis is probably  
the commonest nutritional disease of  
early childhood, and is not recog-  
nized because the condition does not progress to the de-  
gree of a marked deformity of the  
bones. Rickets affects the whole sys-  
tem, the muscles, the nervous sys-  
tem, the blood, and the organs in general,  
although its most characteristic fea-  
ture is bony deformity, such as bow  
legs, knock knees, enlarged joints,  
sway chest, spinal curvature and  
hump back.

Most of the infants of the Italians  
and the negroes in the poorer sections  
of our cities show more or less rick-  
ets, although rickets is rare in Italian  
and negro children in their native  
places; this striking difference is as-  
cribed by various authorities to the  
faulty diet, closer confinement, an  
excessive amount of restraining cloth-  
ing and lack of sunlight or open air  
to which these infants are sub-  
jected in the crowded tenements. The  
diet, which consists of rice, maca-  
roni, and other starchy foods, is  
producing rickets is deficient in  
fat or cream, but carries an excess of  
carbohydrate (various sugars or  
starches).

The most serious prevalence of rickets  
among the negro and Italian infants  
in our northern cities bears a sus-  
picious relation to the popularity of  
some kind of milk substitute among  
the poor, and it happens these substi-  
tutes are uniformly poor in fat or  
cream content and excessive in the  
sugar or starch added, imagining the  
effect of restricting even a fully  
grown adult to a diet of sugar and  
starch exclusively.

The breast fed infant is much less  
likely to have rickets than the bottle  
fed infant, though if the diet of the  
mother is too much restricted (from  
poverty or from false notions about  
what she should avoid eating) her  
baby may develop rickets. Infants  
nursed at the breast more than 10  
months frequently develop rickets.

Rickets not only the bones, but  
the muscles, the blood, the nerve tis-  
sue, the teeth and the substance of  
the vital organs show a deficiency of  
certain mineral matter, particularly  
calcium phosphate (phosphate of  
lime). In health the bones contain  
about two-thirds mineral matter and  
one-third organic matter. In rick-  
ets the ratio may be reversed;  
hence the bones are soft and too  
readily bent or distorted.

Infants seldom show positive signs  
of rickets before the fourth or fifth  
month of age, though they have the  
disease several weeks before it can  
be recognized by ordinary examina-  
tion (microscopical evidence proves

this). Characteristic signs are a  
large square-looking head, narrow  
chest, stick-like wrists and ankles,  
pot belly, excessive sweating about  
the head, restlessness at night, con-  
stipation, peevishness, and general  
flabbiness of muscle. The infant is  
late in sitting up, creeping and walk-  
ing, and the cutting of teeth is usu-  
ally retarded. The child with rick-  
ets is usually anemic and flabby, though  
often fat (thanks to the excess of  
sugar or starch in the food). En-  
larged tonsils and adenoids are al-  
most the rule. Rickettic children re-  
spond to have spasms or convulsions  
from slight causes, and are notorious-  
ly susceptible to bronchitis and pneu-  
monia. One of the best tests of rick-  
ets is an X-ray picture of the bones  
of the hand and wrist, which shows  
the trouble clearly.

QUESTIONS AND ANSWERS.  
The Family Doctor.  
Is there any antidote for nicotine  
poisoning after alcohol? I cannot re-  
main long in a room or car containing  
tobacco smoke without feeling the ef-  
fect, which is not only embarrassing to  
me, but extremely uncomfortable. I  
fancy there are many in the same boat  
with me. (C. D. J.)

Answer—Fresh air is the only anti-  
dote for nicotine.

Is it necessary to send the victim of  
the drink habit to a sanatorium for  
treatment to cure him? He realizes  
that it is killing him and he is willing  
to try any treatment, but lacks the  
will power to stop of his own accord.  
(Mrs. J. L. J.)

Answer—No; he may be success-  
fully treated by his own physician at  
home, provided he consults with a com-  
petent attendant or nurse for a period of  
about ten days. He may be success-  
fully treated in any hospital.

Is there any cure other than opera-  
tion for hemorrhoids in the internal  
stage? They are not chronic, but ap-  
pear and disappear at intervals. (C. J. W.)

Answer—The attack of piles (hem-  
orrhoids) is usually a matter of inter-  
vals. The pile or hemorrhoid (a dis-  
tended vein) becomes inflamed at inter-  
vals, which inflammation constitutes  
the attack. When the inflammation  
subsides there is no discomfort or dis-  
comfort or very little; in this interval  
of freedom from pain many a victim  
has imagined himself cured by some  
worthless or at best some mere pallia-  
tive remedy. The prevention of the  
attack is a matter of special hygiene.

It is discussed at length in an  
special letter about piles which I will  
send you by mail on receipt of your  
address. It is a booklet with a self-  
addressed envelope. Various meth-  
ods for radical cure of piles are used,  
according to the case. In all cases  
surgical in character, despite any as-  
surances to the contrary.

## ASK US

(Any reader can get the answer  
to any question by writing the  
Gazette Information Bureau, Wash-  
ington, D. C., and enclosing a self-  
addressed envelope. The Bureau  
cannot give advice on legal,  
medical, and financial matters, but  
will attempt to settle domestic  
troubles, nor to undertake ex-  
haustive research on any subject.)  
Write your question plainly and  
briefly and enclose two cents in  
stamps for return postage. All  
letters are sent direct to the inquirer.)

Q. Is there any composition that  
will cause gas to light if held close to  
the gas? A. No.

Q. A spongy platinum will do so, and  
is used in gas lighters.

Q. Please give information regard-  
ing the tourist camp in Washington,  
D. C. A. S.

A. A fee of 25 cents a day is  
charged at the tourist camp in Wash-  
ington, D. C. This is considered one  
of the finest camps of its kind to be  
found in the country. It is under the  
care of Col. Sherill, who is in charge  
of public buildings and grounds for  
the government. The camp is  
equipped with all modern con-  
veniences, such as electric light, water,  
gas, electric lights, police protection,  
etc.

Q. Did Henry Ford come back on  
his "peace ship"? A. Yes.

Q. What is the name of the Ford  
peace mission called was the Scan-  
dinavian liner "Oscar II." The mis-  
sion left New York Dec. 4, 1915, and  
returned the latter part of January,  
1918. Mr. Ford, however, returned  
Jan. 1, in advance of the party, on  
account of illness.

Q. What does it cost Great Britain  
to maintain her permanent territories  
of the world war? I. O. E.

A. According to a report of the  
chancellor of the exchequer, expendi-  
tures on mandated territories of  
Great Britain from April 1, 1918, to  
March 31, 1923, were estimated at  
162,000,000 pounds or approximately  
\$77,000,000.

Q. What countries produce the  
greatest amount of silver? A. G.

A. According to a report of Senator  
Oddie of Nevada, the three Americas  
produce 90 per cent of the world's an-  
nual output of silver, which amounts to be-  
tween 170,000,000 and 200,000,000  
ounces of silver annually. Mexico, the  
United States and Canada produce  
in the order named.

Q. How much fish are pearl but-  
tons made? J. M. T.

A. Fresh water mussels are the  
principal source of material for pearl  
buttons. More than 15,000,000 great  
fresh water pearl buttons are man-  
ufactured yearly from these shell  
fish. The value is placed at approx-  
imately \$5,000,000.

## A Free Automobile Road Book

The pleasure of that automobile  
trip you are contemplating this  
summer will depend on whether or  
not you have the right road book.  
There will be all the difference be-  
tween smooth going and bumps,  
between beautiful scenery and sad-  
ness, between good hotels and bad.  
Let our Washington Information  
Bureau aid you in planning your  
vacation trip. It has for free dis-  
tribution a beautiful road book  
which gives insignia and descrip-  
tions of the principal highways of  
the United States, contains an  
auto trail map, lists the various  
state parks and camp sites, and is  
full of practical and useful sugges-  
tions for the camper and tourist.  
Send for your copy today. En-  
close two cents in stamps for re-  
turn postage.

Frederick J. Haskin, Director,  
The Janesville Daily Gazette  
Information Bureau,  
Washington, D. C.

I enclose herewith two cents in  
stamps for return postage on a  
free copy of the Automobile Road  
Book.

When a "touristmaster" introduces  
somebody "that needs no intro-  
duction" you "thinks" don't be  
there? Next it "hoves" we don't  
know "northern" that's "gittin' scarce" than  
home-grown "gittin'.

## Band Concerts

on West Side  
Playgrounds

Playgrounds on the west side of  
the river will enjoy band concerts  
Friday afternoon, the second of the  
series of concerts by the high school  
bands. Last week Thursday they  
were at the Adams and Jefferson;  
tomorrow they will be at the Wash-  
ington, Douglas and Webster. Start-  
ing at 1:15 at the Washington, the  
bands will play for more than half  
an hour, then go to the Douglas,  
where there will be playing from  
2 to 2:40. Bands will wind up the  
day at the Webster, playing there  
from 2:45 to 3:30.

During the band concerts at each  
school there will be a doll parade,  
with judges choosing the best doll  
buggy and the school having the  
best parade. Finishing at the Web-  
ster at 3:30, judges will go to the  
Adams to judge, and from there to  
the Jefferson at four o'clock.

After the band concert, first planned  
for Friday afternoon, will be held at  
10 a. m. Friday at the fair grounds.  
Playground directors have been  
working up interest all week, and  
many novel ideas are expected.  
The public is invited to the con-  
certs, doll buggy parades and the  
kite tournament.

## EVANSVILLE NEWS

Evansville—The Odd Fellows and Rebekah's of Dane, Rock and Green counties will hold an association picnic in the park Saturday. A good program is being prepared. The high school band will furnish music throughout the day. William Maile will give the address of welcome, followed by talks by past grand master G. E. Waterman and J. F. Carles, state chaplain, Janesville. Prizes will be given in contests, some of which will be a race for men and women, a school race of women, tug o'war, for both men and women, fat man's race, nail driving contest for women and girls, several stunts for boys and girls. Besides the Odd Fellows and Rebekahs, the public is invited. Everyone is to bring picnic lunch and a cup. Coffee will be served free. In the evening there will be a dance at the Maile opera house, music by the George Maile orchestra. The committee on attractions consists of J. E. Waller, John Bly, G. W. Maile, Erwin Cox, Mrs. Maile Waller, Mrs. Sophie Jensen and Mrs. Marie Brooks.

A son was born Monday to Mr. and Mrs. Walter Chaplin, Afton. Mrs. O. C. Chaplin is there caring for the Chaplin home and the oldest son while the mother and baby are in a local hospital.

Mrs. P. M. Carson and son Emory and Mrs. George Maile were visitors in Madison Wednesday.

Mrs. Charles Barnum entertained the twilight Larkin club Wednesday.

## JEFFERSON COUNTY

## FT. ATKINSON

Fort Atkinson—The Fort Atkinson municipal band gave its weekly concert at the park Wednesday night under the direction of Joseph Dietz.

The concert by one of the best bands in Wisconsin has been much enjoyed.

Main street is now an arterial highway and all vehicles are required to come to a full stop before entering upon or crossing Main street.

Signs calling attention of motorists have been posted at each street which intersects Main.

Mr. and Mrs. Lyman Jeffords, Miss Edna Hunt and Miss Bessie McComb returned Monday from an automobile trip of the west. They traveled a Ford and camped in a tent visiting Yellowstone National park, Salt Lake City and Denver, traveling 4,000 miles in 12 states in 30 days. They were in a house but once. At Topeka, Kan., they saw Floyd Bientang who works in a cannery factory.

With this issue, Mrs. C. E. Masters, 403 Grove street, takes up her duties as correspondent for the Gazette. In place of Mrs. J. P. Schreiner, who has given up the work after an able service of several years. News items may be telephoned to Mrs. Masters either at her house, 351 W. or the store, 321.

Mrs. C. E. Masters entertained the Royal Neighbors club at her Lake Koshkonong cottage Tuesday. She was assisted in entertaining by Messrs. J. C. Messner, J. C. Schreiner, H. Seavert and Theodore Young.

Mrs. E. F. McDonald entertained at a 1 o'clock luncheon Tuesday at the Black Hawk Tavern for Janesville Haymen. They were Misses Raymond Hayes, Emma Connors, James Ryan, George Bennett, Alva Russell, J. P. O'Connell and Misses E. Josephine Fitzgerald and Nellie Ryan. Bridge was played and Mrs. Russell won the prize.

Reports from Camp Douglas indicate that the 70 members of Troop F of cavalry of Fort Atkinson, are enjoying the first week of their annual camp. The camp is at Camp Douglas. Sunday is visitors' day and the boys invite their friends to drive to the camp and see the tented city and observe military life.

Mrs. C. C. Converse chaperoned Whitewater normal summer school students on the tour to Lake Geneva Tuesday. Among those making the trip were three Fort Atkinson girls: Miss Vera Beach, Louise Converse and Eva Harlow.

Mrs. George Foulmer was called to Milwaukee Tuesday on account of the injuries sustained by her son-in-law, a Milwaukee in an automobile accident.

Mrs. Herman Ailing, Lake Mills, is visiting here with her daughters, Mrs. Edward Wilson and Mrs. F. E. Jones.

The Ladies Auxiliary of the American Legion held a picnic at Jones' park Monday.

Survey Will be Made by Y.W.C.A.

at Evansville

A Y. W. C. A. survey of community life as related to women and girls will be made in Evansville and a delegation of places will attend the district conference at Lake Geneva, as a result of a conference of representative women on Tuesday.

## JEFFERSON

Jefferson—A son was born to Mr. and Mrs. Reed Stoppenbach Tuesday, July 17.

Mr. and Mrs. W. E. Hanson and daughters of Oxford, Wis., Miss Viola Hanson, New Lisbon, and Mores Anderson, Kilbourn, spent the week-end at the Theodore J. Schumacher home.

John Knorr died Tuesday afternoon at his home on the Waterway road. Funeral services will be held Friday at 2:30 p. m. at the house, and 2 o'clock at St. John's Lutheran church.

Miss Catherine Mueller, daughter of Mr. and Mrs. Charles Mueller and son J. Noel, son of Mr. and Mrs. Leonard Noel, were married at St. Peter and Paul Catholic parsonage, Milwaukee, at 11:30 a. m. Wednesday, July 18. The Rev. W. J. Pichler performed the ceremony. The witnesses were Miss Marie Noel, sister of the groom, and Franklin Mueller, brother of the bride.

After a wedding trip to Superior and other points in Wisconsin and Minnesota, Mr. and Mrs. Noel will make their home in the Weckwerth residence on South street.

Miss Agnes Heger left for Milwaukee, Tuesday, for an indefinite visit.

Miss Iva Gross, was a Milwaukee visitor Tuesday.

Mrs. Alfred Berchard and children and Mrs. Kluge spent Wednesday in Deloit.

Ernest Serna has purchased the old shoe factory building on the "Fracation," owned by Mrs. G. Fehnel.

RUHR ONLY SOLID GUARANTEE FRANCE CAN LAY HANDS ON

(Continued from Page 1)

cost of repair and also makes them wonder what Germany will do in another two years. Rebuilding is not so difficult as it is to get Germany has no devastated areas to worry about. In other words, can anybody truly estimate the capacity of forty million French people to produce revenue more accurately than he can estimate the capacity of sixty million Germans? It goes to the heart of the whole reparations problem and explains better than anything else why the French are so about commissions to investigate facts or estimate the sums Germany can pay.

The French have their suspicions about international bankers who, they say, are helping Germany to get out of the reparations commission. The French say that any commission such as United States Secretary of State Hughes proposed would only have made another guess about the future. Can anyone tell the future of a private business? Can anyone say what the crops will be in any particular year? How can anyone estimate the quality of the harvest? The French insist that the reparations commission was created for the very purpose of altering from time to time the amount of German indemnity as conditions changed, but the French have the majority on the reparations commission because Italy and Belgium must vote with Germany against Great Britain. The whole maneuver of the British has been to set up another commission wherein the French will be compelled to make sacrifices. At the same time, the French are not so sure that they can pay ultimately more than any one dreams today. The French do not want any "fact," from the "fact" they merely give estimates, and that is what they would have to do. The French would rather take a chance on developments and see what the German recuperative power yields each year.

Hold Out Ruhr.

Meanwhile the French have every intention of holding out the Ruhr. It is the one guarantee they think will be effective. France must think of the day when Germany, having so far recovered as to pay perhaps half of the indemnity, must be strong enough to repudiate the remainder and challenge France to collect the rest. If she does, what the French think they can do by holding the Ruhr indefinitely is to force Germany weak enough militarily to prevent another war (because the Ruhr is Germany's arsenal) and yet stimulate the Germans to produce as much as they can as possible annually to pay off the war debt and thus get France out of the Ruhr. The French can wait, and will wait a hundred years if necessary. They are in no hurry about letting go of the Ruhr. All this does not help British trade interests, or the commerce of the rest of the world but it's the only way to force Germany to be strong enough to prevent another war (because the Ruhr is Germany's arsenal) and yet stimulate the Germans to produce as much as they can as possible annually to pay off the war debt and thus get France out of the Ruhr. The French can wait, and will wait a hundred years if necessary. They are in no hurry about letting go of the Ruhr. All this does not help British trade interests, or the commerce of the rest of the world but it's the only way to force Germany to be strong enough to prevent another war (because the Ruhr is Germany's arsenal) and yet stimulate the Germans to produce as much as they can as possible annually to pay off the war debt and thus get France out of the Ruhr. The French can wait, and will wait a hundred years if necessary. They are in no hurry about letting go of the Ruhr. Busy Man's Sport Page

By FRANK SINCLAIR

Henry Leonard and Lew Tandler step into the same ring and meet each other on July 25, Henry to defend his lightweight title and Tandler to attempt to take it from him. There doesn't seem to be much of a possibility that Leonard will topple any more this time than he has since he dived the crowd. The Washington champion of them all, Henry is perhaps the most clever and possessed of the largest amount of grey matter in the ring. He is like a one of the elements of men. All of these things operate, along with his national business instinct, to keep him placed on the top notch. Some day Henry will like to evade his title, but it will not be through Tandler, nor through White.

ALL THESE playground baseball games may not seem much to the older generation of Jamesville players, unless they happen to have sons or daughters playing; but they mean much to the boys and girls. More over, they mean considerable to the future of athletics in the local schools and the city in general. They are developing the taste for healthful sport, and by so doing are helping lay the groundwork for a stronger Jamesville, mentally and physically. The playground is a tremendous building asset to the city.

THE WRITER started something in this column recently by giving the occasional padding of box scores by baseball teams. No names were mentioned in that paragraph. Wednesday the manager of a local team dropped into the office regarding his game, to show that his box score sheets showed exactly what was sent in his report. That's good, cooperation and it was a pleasure to share the chat around. That brings up another matter. Teams lose considerable prestige when they do not have a score keeper who knows his business. It is a pleasure to score as to have any Tom, Dick or Harry attempt to chalk it up who doesn't know what he is doing. A team manager should have a score keeper from the box score that when studied carefully gives him a clue to ways of correcting faults of his club.

Mrs. F. C. Letts wins Chicago golf title.

Chiva and Youndee feature on Hawthorne track.

Horses that will be seen here feature at Aurora races.

Diamond Sparkles (By A. P.)—Babe Ruth made 22nd home run in Wednesday's game with Detroit, the Yankees winning 4-1. Of four runs made by Babe Ruth, three were home runs, one Babe's and others from sticks of Dugan and Ward. Boston and Chicago broke even in double header at Boston, even in double header. First 6-3, Chicago, second 3-3. Cardinals won first game from Atlanta 6-4. Cincinnati, defeating Brooklyn, 8-4, climbed nearer top of league. White Sox, who had lost to Boston, won first game of double header, 3-2, when he pitched second base in first game against Red Sox. He is leading all major leagues in this department.

Favonian, Edman up, wins \$10,000 2:08 trot at Kalamazoo.

Georgia league bars doors to Joe Jackson, "Black Sox."

Half million attend gymnastic games at Munich, Germany.

Twenty yachts to compete in Mackinac race next Saturday.

Scraps About Scrappers—Rich Mitchell loses to Charlie White at New York when Billy Mitchell tosses in sponge after Rich had been knocked down twice. Then Mitchell's seconds wanted the fight continued, but commission ruled them out. Firpo's demands hold up Rickard in plan for bout with Dempsey. Phil O'Day, Columbus, O., substituted for Johnny Buff against Harold Smith at Aurora, Friday. Tickets for Leonard-Tandler go selling rapidly.

Wallace J. Bates, Pacific coast lad, beats Masanosuke Fukuda, Jap tennis star.

Clyde the Great, trotter, purchased by Thomas W. Murphy for \$20,000.

South Dakota league, Mike Cantillon president, dissolves.

Preus' Hitting.

Tops Wolf Pack

Preus is leading the Jamesville Wolves in batting averages with a percentage of .453, according to figures given out Thursday. He is followed by Schiffelstein and Mueller.

The Wolves practice at the Pines at 6:30 p. m. Thursday. New signals will be worked by Manager Puelman.

Averages:

Janesville Beats Edgerton Golfers-Richie Loses

SCORE IS 42-31; MUNSON LAD WINS FROM "PRO," 1 UP

Janesville golfers defeated Edgerton at the Tobacco city country club Wednesday afternoon, 42 to 31, in the first inter-city match between the clubs.

E. P. Wilcox and Jim Harris were low for the Janesville club, with 30. They received four holes each. Edgerton's best was 34, receiving two golf balls.

Byron and Myers were tied for low of the Edgerton club. They turned in a count of 90.

Thirty-eight players went from Janesville to attend the match. The feature of the afternoon's play was the victory of Loren (Punk) Munson, 17-year old Janesville caddy, over Professional Jacobson of the Edgerton club. Their scores were 42 for Munson and 43 for Jacobson. Before the regular play, Munson went over the course in 40. Par is 37.

Scores for all players:

Janesville (42)	Edgerton (41)
Peterson	95-0
Kings	101-0
Wilcox	101-0
McIntosh	102-0
Carper	103-0
Wagner	104-0
Holmes	105-0
W. McVicar	106-0
E. Schell	107-0
Grant	108-0
R. Schiller	109-0
Granger	110-0
Jeffries	111-0
J. Harris	112-0
Kemmerer	113-0
Gibbons	114-0
Jackson	115-0
Kerst	116-0
Hausman	117-0

St. Patrick's Win at K. of C. Picnic

Kiltion ball featured the Knights of Columbus picnic at Board's Hotel, Lake Koshkonong, Wednesday. In a battle of intense rivalry, St. Patrick's team finally won over St. Mary's due to a homer with two men on by the Rev. Mr. Ulrich. The score was 7-6.

The line ups:

St. Patrick's—McCaffrey, c.; Cassidy, p.; Wolfe, 1b.; McCue, 1st ss.; Dunphy, 2nd ss.; Collins, 2b.; Rev. Ulrich, 3b.; Cullen, cf.; J. J. Cunningham, cf.; Crane, cf.; Heffner, p.

St. Mary's—Casey, c.; George Sennot, p.; DeBruin, 1b.; Dr. Poole, 1st ss.; Doherty, 2nd ss.; Oberholts, 2b.; McGee, 3b.; Rockwell, cf.; Siegel, cf.; O'Hara, cf.; Rev. Olson, cf.; Kretschman, cf.; Umpire, Jack Comford.

In a game earlier in the afternoon the "Goats" won over the "Goats." Horse shoe pitching and swimming were on the program. About 75 members attended. Supper was served at 7 p. m.

Edgerton Beats Cambridge, 10-4

(SPECIAL TO THE GAZETTE.)

Edgerton—The local southern Wisconsin league baseball team defeated Cambridge at the Lutheran picnic here Wednesday afternoon, 10 to 4. Condon hit a homer with three men on. Edgerton's batsmen and Whitford formed the Edgerton battery, while Christenson and Perry worked for the visitors.

Running races being planned for Aurora.

Mitchells Throw Sponge and Then Change Heart

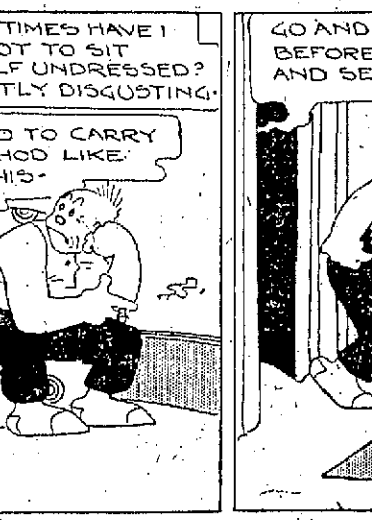

New York—Charley White, Chicago lightweight boxer, stopped Ritchie Mitchell of Milwaukee, in the fourth round of a 15 round match at the New York Velodrome Wednesday night, but it is doubtful whether the victory enhanced the Chicagoan's title aspirations in the 135 pound division.

Mitchell apparently did not like the heat, and he was aggressive, but a mark for White's heavy punches at close quarters. A right to the jaw, followed by a

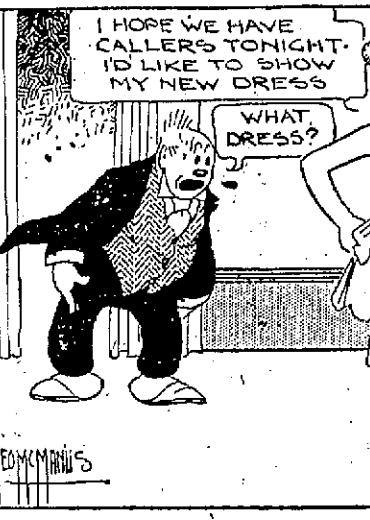

Figure 14,000 Have Seen Southern Loop Contests

Estimated attendance at games of the Southern Wisconsin Home Talent Baseball league up to and including last Sunday has been 14,250, according to figures released at headquarters of the circuit here.

Attendance by towns follows:

Janesville, 6,500 for five games; Edgerton, 2,700 for five games; Stoughton, 1,500 for five games; Deerfield, 1,550 for five games.

Season should see 25,000.

With 19 more games on the schedule, and at the same rate of interest, 10,000 more should pass through the gates. This will mean that the season will have drawn approximately 25,000 supporters to games in which only material living in the communities they represent have played.

A great crowd is expected to be drawn next Sunday when Edgerton plays Port Atkinson at the Robins nest in the Port. That crowd, by every possibility of good weather, should be well over the 1,000 mark. Port is on top of the loop with but one defeat. Edgerton is second and has lost three games out of 10. These two teams seem at the present time to have the battle for first place all to themselves. Deerfield, who is in third position, is three and a half games in the rear of the Tobacco city.

Three Features

Looking over last Sunday's games, there were three features that stood out above all others. One was the pulling of five double plays by Cambridge in defeating Janesville, 6 to 1. The second was the making of 10 runs in the second inning by Edgerton off Gilbertson. Deerfield, while the rest of that game was a 1 to 1 proposition. The third was the letting down of the Deerfield club with five hits by Earl Whitford, the no-hit man twice.

In addition to Edgerton's appearance at Port Atkinson next Sunday, the games are: Stoughton at Janesville and Cambridge at Deerfield.

Notes of the League

Quinn will see Whitey Gray, the outfielder for Janesville next Sunday.

Raubacher and McNitt, Booster outfielders, are with the Janesville team at Camp Douglas.

Gregory, Janesville catcher, has been out of the game with boils between the toes of his left foot.

Belt struck out 11 Cambridge men but was knocked for 15 hits, and but one error was made behind.

Edgerton played errorless ball last Sunday.

Shortstops did not work hard last Sunday. Nichols, with three putouts, and Bart of Edgerton, with four assists, had the lead.

Carroll, Stoughton first sacker, had 17 putouts and one error, the record of the season.

Every man but Centerfielder Condon on the Janesville team had at least one putout or assist.

Rain fell through the progress of all three games.

Long hits were scarce. Only five two-baggers were made; only three triples; no homers.

Edgerton's box score:

Latsch-Helmrichs-Spilde; pitcher—Whitford. Sacrifice hits—Trevorrah, Whitford. Hit by pitcher—Trevorrah. Stolen bases—Herman-Burns, Gilbertson, B. Whitford, Umpire—Bassett and Johnson.

HOOPER KNOWS NOTHING

New York—Walter Hooper, Duluth carman, who lost his title to the diamond sculls when he was eliminated in the first heat at the English Harbor regatta because of a broken arm, professed ignorance of plans for his entry in the national regatta at Baltimore Aug. 3 and 4 upon his return from abroad Wednesday.

Attendance was 10,628.

Will State Golf Title Go to Allis or Cavanagh?

Two weeks remain and then the golfers of Wisconsin will gather at the Blue Stained Country Club in Milwaukee for the annual battle of the Badger links. The meet will open on July 30.

From deep gathered from Henry Tyrrell, Milwaukee, secretary of the Wisconsin Golf association, the prospects are that 200 golfers will see off this year. Among this number will be Janesville's annual contingent.

Whether Matteson, the Chicago man who has been with the Janesville players for the past two years, will again play with the Bower City man, is not certain. Two years ago he was runner-up for the title, playing sensational golf, falling down

only as the end neared.

Late entries will be received by Secretary Parrell up to July 28. He will open headquarters for that purpose at the Hotel Maryland, Milwaukee.

The annual battle for the championship, between "Dick" Cavanagh of Kenosha and Ned Allis of Milwaukee, is again expected to be staged. The same old hope, however, that some new blood may put in its appearance, is expressed this season as in the past. Allis won last year from Cavanagh. The year before Gordon Gultberg of Racine topped Allis while playing on his home course.

The Yule cup play will precede the title play.

Fairies Blanked by Simmons, 2-0; Racine Is Winner

Kenosha—On the heels of the acquisition of King Lear, star slugger of the Milwaukee Brewers, by the Nash Motors team here Tuesday, came the announcement Wednesday by Manager Walter Miller of the Nash team that Bob Wright, right-handed hurler of the Toledo American association team, had also signed a Nash contract. Wright, according to Miller, has already left the Toledo team and was to join Nash either Wednesday night at Kenosha or on Thursday at Canton, O. The terms of the contract were not made public.

## THE PRESIDENT—FARTHEST NORTH

President Harding, indicated by arrow, speaking at Ketchikan, Alaska.

Alaskans who have seen President Harding during his tour of America's farthest north possession, have been impressed by two things—the president's earnest desire to find a solution to their gravest problems and his appreciation of the beauty and possibilities of the territory. The photo above, taken during his

## Fat That Shows Soon Disappears

Prominent fat that comes and stays where it is not needed is a burden, a hindrance to activity, a curb upon pleasure. You can take off the fat where it shows by taking after each meal and at bedtime, one Marmola Prescription Tablet. These little tablets are as effective and harmless as the famous prescription from which they take their name. Buy and try a case today. All druggists the world over sell them at one dollar for a case or you can order them direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich. You can thus say good-bye to dining, exercise and fat, and you don't have to use disgusting salves and greases. Advertisement.

## GIRL RESERVES HOLD PICNIC AT GENEVA

Officers of the Grace Dodge and senior high school Girl Reserve clubs had an all day picnic and conference at Lake Geneva Wednesday. Mrs. Allen P. Lovejoy, Jr. was hostess. Grace Dodge officers present were: Charlotte Clark, Alvira Greiner, Charlotte Campbell, Esther Deans. Senior high officers: Ruth Fisher, Clement Wright, Mildred Malmberg, Ruth Austin, Baulah Ransom. The party was accompanied by the Miss Ruth Jeffris, Mabel Keasy, Eunice Nelson, Marion Hamlen, and Helen King. Program and aims for the coming year were discussed. A picnic dinner and swimming were features.

## CANNOT COLLECT BILL FROM WOMAN

Only one case has been up in justice court recently. Judge Charles Lange has been spending two weeks

trip, shows how he was received in Alaska.

at Koshkonong and has just returned. The case was that of George Harmon suing Zella Kensilans for a grocery bill. Judge Lange ruled against the plaintiff, saying Mrs. Kensilans was living with her husband at the time the groceries were purchased, although the couple is now separated. The case was dismissed.

## SCHOOL REPORTS DUE NOT LATER JULY 25

Fifty district school clerks have voted to file their annual reports with County Superintendent Gilmore T. Longbottom. Under the law all reports must be in by July 25 and Mr. Longbottom urges clerks to send them in at once to expedite the work of making the county report to the state superintendent.

## GET JUDGMENT ON NOPE

Judgment on a note for \$54.38 against W. H. Latta has been secured by the Citizens Bank of Delavan and Banking corporation through recording in the Rock county circuit court.

MAGNUS JOHNSON  
"DON'T GIVE A DAMN FOR BOOKS," HE SAYS

St. Paul — Some of the leaders in politics here, both farmer laborites and republicans, are amused somewhat over the statements made by Senator LaFollette on the election of Magnus Johnson. While it is true that Johnson declared himself in favor of LaFollette policies yet it is no secret that the adorable man in his mind is Senator Brooks of Iowa and it is the Iowa man he will follow. Johnson has been plain about his policies, he has no other than to follow someone else. During the campaign he has given no hint of what he could accomplish and his campaign generally was that something was wrong and he knew it while others did not.

Sense and Nonsense  
Johnson is a strange mixture of sense and nonsense. He was born in Varmland, Sweden, in 1871, and grew to manhood in that country which has exported so many of its citizens to Minnesota. He learned the trade of glass-blower in Sweden. In the 1921 session of the Legislature, Senator Johnson was called before the combined elections committee of the House and Senate of the Legislature.

The committee was meeting in a room about sixteen feet by twenty. There were twenty or more committee members in the room. One could speak in a whisper and he heard. Enter Magnus Johnson: "Gentlemen of the committee," he said, "I am a glass-blower and I can't talk in a whisper."

"In Sweden I was a glass-blower and that's what I got these big

lungs," patting his great chest. "I can't talk in a whisper."

From his savings as a glass-blower in Sweden, Johnson emigrated to Minnesota and bought a farm in Meeker County. He has farmed there ever since. He was elected president of the State union of the American Society of Equity. For ten years he was vice president of the Equity Cooperative Grain Exchange in St. Paul, now in the hands of the Farmers' Packing Company of Fargo, N. D., also in the hands of a receiver. But still, he has the confidence of the farmers.

"Don't Give a Damn for Books"  
"I don't give a damn for books," Magnus Johnson said. "I want things that are alive, not things that have been dead for thousands of years. I have read more histories than any man but I can't see a thing in them. Only about Lincoln, I stand where he stood. He was a great man. I quote him in my speeches."

"I don't believe," Mr. Johnson said, "in being too definite on issues. I'll wait till I get Brookhart's report before I decide on foreign relations. I don't want to get tangled up before I know something."

Mr. Johnson is "dry" as a matter of fact. He has voted in the Minnesota Legislature for everything that the Anti-Saloon League has asked. Still he has many of the brewery wets supporting him.

He is "Dry"  
Asked as to his attitude on the volstead act, Mr. Johnson in the Minnesota Legislature shows where I stand on this question. He was equally definite on the Permanent Court for International Justice. "I am for arbitration of difficulties between nations," he admitted very clearly.

The tariff was equally easy. He declared for "revision in the interest of the public and on a strictly scientific basis."

And many a girl has been able to support herself and a large collection of relations by marrying the right man.

## Not a Trace Was Left, Declares N. Wentink

"Taniac built me up ten pounds in weight and made me feel like a new man," recently said N. Wentink, Ludelo Ave., St. Francis, Wis., a valued employee of the Vilter Mfg. Co.

"Before I got the medicine I suffered from indigestion so bad that my food seemed to do me harm instead of good. After meals gas always formed on my stomach and distressed me until I was terribly worried about myself. My appetite fell away, my liver was sluggish and I got so run-down I just dragged around, feeling tired and worn-out all the time."

"My appetite sharpened right up from the very day I started taking Taniac, and by the time two bottles were gone I didn't have a trace of indigestion; my liver was regular as clockwork, and I had a new supply of strength and energy. Taniac did so much for me I couldn't do otherwise than give it my highest praise."

Taniac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Taniac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere. —Advertisement.

## Still No Trace of Missing People

Although police in a score of cities have been asked to aid in the

search for Eusebius L. Custer, salesman for the D. J. Luby Co., and Mrs. Albert Oestreich, Ruger avenue, no information regarding their whereabouts have been received at police headquarters. Mrs. Oestreich and Custer disappeared from Janesville, July 10.

DULL DAY IN COURT.  
Although over 35 cases were tried before Judge H. L. Maxfield in Municipal court Monday and Tuesday as the result of the police drive on speakeas and light violators, the court experienced a dull day Thursday, not a single action being heard.
